Microsoft Teams

Microsoft Teams

## One Simple Plan

From  
**\$9.90**<sup>ex GST</sup>  
per user  
per month

### Teams Calling Unlimited

**Unlimited** Local & National Calls  
**Unlimited** Mobile Calls  
**\$0.25** 13/1300 Per Call

Teams calling requires Teams Phone Standard @ \$15<sup>ex</sup> per month (annual commitment) for each user.

\$4.50<sup>ex</sup> calling plan per Auto Attendant and Call Queue and require the free Microsoft Teams Phone Resource Accounts.

## Key Features

### Auto Attendant

Lets you create a menu system that enables external and internal callers to locate and place or transfer calls to company users or departments in your organisation.

### Cloud Call Queues

Lets you configure how call queues are managed for your organisation: for example, set up greetings and music on hold, search for the next available call agent to handle the call, and so on.

### Cloud Voicemail

When a user receives a voicemail, it is delivered to their Exchange mailbox as an email with the voicemail message as an attachment.

### Device Switching

Lets users play a call or meeting on another HID device that is connected to Teams; for example, switching from their PC speakers to a headset.
